TOP RECORDS \$15M PROFIT AND INCREASES FINAL DIVIDEND BY 27%

Dear fellow shareholder,

I'm delighted to report that for the year ended 30 June 2019, Thorney Opportunities Ltd (TOP) has delivered a net profit before tax of \$15,009,872.

Directors have also declared a record Final dividend (100% franked) of 1.14 cents per share (cps), up 27% on last year. Total dividends for the 2019 Financial Year of 1.80 cents per share represent a 20% increase over 2018.

The partial realisation of your Company's holding in Service Stream Limited, an investment which has been highly successful, has enabled the higher Final dividend of 1.14 cps. The Final dividend has a record date of 10 September 2019, and will be paid to registered shareholders on 30 September 2019. The Board remains committed to continuing to increase dividends when possible in the future.

As at 30 June 2019, TOP's net tangible assets (NTA) after tax per share stood at 80.1 cents (2018: 75.7 cents) which is after the payment of management fees, taxes and fully franked dividends to TOP shareholders. As at 31 July 2019 the NTA had increased to 82.0 cps.

Over the past 5 years the NTA has risen from 46.6 cps to 80.1 cps, representing a 72% gain. In addition TOP has also paid 6.9 cps in fully franked dividends over this period which equates to a gross annualised performance of 17.3%.

The Board believes it is appropriate to maintain the suspension of the dividend reinvestment plan (DRP), due largely to the discount which exists between the underlying share price and the NTA. I have personally taken advantage of the discount to NTA by purchasing an additional 3,180,893 shares since the beginning of the financial year, increasing my interest in the Company to 29.5%.

In September, following completion of the 2019 financial reporting season, I will send you a Chairman's Update which will provide both highlights from TOP's portfolio companies and some of my insights. My team and I will continue to monitor the activities of all the investment portfolio positions as well as seek out new and compelling investments.

All Chairman's Updates can be found on TOP's website, thorneyopportunities.com.au/chairmans-updates.

On behalf of my fellow Board members and investment team, I want to thank you for your continued support and interest in TOP and I look forward to a successful year ahead.

Alex Waislitz
Chairman

Directors' report continued

3. Principal activities

Thorney Opportunities Ltd is an investment company listed on the Australian Securities Exchange (ASX: TOP). Its principal activity is making investments in listed and unlisted securities.

There have been no changes in the nature of these activities during the 2019 financial year.

4. Result

The Company's net profit before tax for the 2019 financial year was \$15,009,872 (2018: \$12,845,205) and the net profit after tax was \$12,045,578 (2018: \$11,109,436).

Net tangible assets after tax were 80.1 cents per share (2018: 75.7 cents per share).

5. Dividends

TOP directors declared a 2019 Interim fully franked dividend of 0.66 cents per share for the period, which was paid on 4 April 2019.

On 13 August 2019 the Board declared a Final fully franked dividend of 1.14 cents per share (2018 Final dividend: 0.9 cents per share). The tax rate for imputation purposes will be at 27.5%, which is the maximum allowable under Australian taxation law (i.e. 100% fully franked). The Dividend Reinvestment Plan (DRP) will not operate in respect of the 2019 Final dividend.

The Final dividend will be paid to shareholders on 30 September 2019. The total dividend of approximately \$2,321,259 has not been recorded as a liability in the financial accounts. The dividends will be paid to all shareholders who are duly recorded on the register of members as at 5pm on Wednesday, 10 September 2019.

The fully franked 2018 Final dividend of 0.9 cents per share was paid on 2 October 2018 and the fully franked 2019 Interim dividend of 0.66 cents per share was paid on 4 April 2019.

6. Review of operations

Over the course of the financial year ended 30 June 2019, the Company increased its net tangible assets to \$163,017,662 (2018: \$154,148,545). Cash and short-term deposits as at 30 June 2019 was \$3,774,665 (2018: \$14,589,511). This decrease in cash reflects a steady net deployment of capital into certain existing and new investment positions including TOP taking a 25% position at a cost of \$7.5 million in the recent \$115.0 million acquisition of the Australian Community Media group from Nine Entertainment (NEC) announced in July 2019.

During 2019 TOP became a substantial shareholder of Decmil Group Limited in September 2018 and iSelect Limited in April 2019 and ceased to be a substantial holder in AMA Group Limited in September 2018 and Zenith Energy Limited in July 2019. During the year, TOP lodged notices with the ASX of increases of its voting percentage in Southern Cross Electrical Engineering Limited, Angel Seafood Holdings Limited, Murray River Organics Group Limited, MMA Offshore Limited and Palla Pharma Limited. Also during the year, TOP decreased its investment in Service Stream Limited, Money3 Corporation Limited and AMA Group Limited, lodging substantial holder notices during the period as required.

In May 2019 TOP held an investment forum in Sydney (jointly with Thorney Technologies Ltd) and several TOP investee companies presented including Southern Cross Electrical Engineering Limited, Decmil Group Limited, AMA Group Limited, iSelect Limited, MMA Offshore Limited and OneVue Holdings Limited.

7. Financial position

The Company's net tangible assets can be summarised as follows:

Net tangible asset backing per share	2019	2018
Net tangible assets	\$163,017,662	\$154,148,545
Shares on issue	203,619,230	203,619,230
Net tangible assets after tax per share	80.1 cents	75.7 cents

8. Prospects

The Company remains committed to maintaining its disciplined approach to investing.

The Board is optimistic that, in this challenging economic environment, opportunities which may be attractive to the Company will continue to emerge over the coming period.

9. Material business risks

The Company's risk management and compliance framework operated effectively throughout the financial year ensuring that the two main areas of risk that have been identified (investment risk and operational risk) were appropriately monitored and managed.

With an investment mandate with exposures to small to medium size capitalisation companies, TOP will always bear market risk as it invests its capital in assets that are not risk free.

10. Events subsequent to balance date

There were no events subsequent to balance date.

11. 2019 Remuneration report (Audited)

This report outlines the Key Management Personnel remuneration arrangements of the Company in accordance with the requirements of the *Corporations Act 2001* and its Regulations.

For the purposes of the report, Key Management Personnel are defined as those persons and corporate entities having authority and responsibility for planning, directing and controlling activities of the Company.

For Thorney Opportunities Ltd the Key Management Personnel are the Non-executive Directors and the Investment Manager.

(a) Remuneration of Directors

The Non-executive Directors are remunerated by the Company. It is the policy of the Board to remunerate Directors at market rates commensurate with the responsibilities undertaken by Non-executive Directors. The remuneration of the Non-executive Directors is not linked to the performance of the Company.

Non-executive Directors' fees

The Non-executive Directors' base remuneration is reviewed annually. There was no change in remuneration during the period and annual fees paid to each Director have remained unchanged since their appointment. The amount of base remuneration is not dependent on the satisfaction of a performance condition, or on the performance of the Company, the Company's share price, or dividends paid by the Company.

Non-executive Chairman's fees

For his role as Chairman and director of TOP, the Non-executive Chairman, Alex Waislitz, receives zero directors' fees and zero retirement benefits.

Retirement benefits for Directors

The Company does not provide retirement benefits (other than superannuation) to the Non-executive Directors. The Investment Manager does not provide retirement benefits (other than superannuation) to the Non-executive Chairman.

Other benefits (including termination) and incentives

The Company does not pay other benefits and incentives to the Non-executive Directors. The Company and the Investment Manager do not pay other benefits and incentives to the Non-executive Chairman.

(b) Remuneration of the Investment Manager

The Investment Manager (Thorney Management Services Pty Ltd) is a corporate entity controlled by Mr Waislitz that has specified authority and responsibility in regard to the management of the Company's investment portfolio and is remunerated by the Company in accordance with the Investment Management Agreement (IMA) between the Company and the Investment Manager.

In respect of the year ended 30 June 2019, the Investment Manager was entitled to:

- a Base Fee of \$2,411,687 (GST exclusive), being a Base Fee equal to 0.75% per half year of the gross asset value of the Company, payable half-yearly in arrears, calculated as at the last business day of the relevant half-year; and
- a Performance Fee of \$3,030,334 (GST exclusive), payable in respect of the year ended 30 June 2019. The fee is the greater of zero and the amount calculated as 20% of the Increase Amount. The Increase Amount is the adjusted Net Asset Value for the current period less the Net Asset Value from the previous period and less a hurdle, equivalent to the value of any Base Fee paid or accrued. Performance fee entitlements are calculated on an annual basis, commencing on 1 July of each financial year. If there is no Increase Amount for a financial year, the shortfall is not carried forward and not deducted from any increase in future financial year(s) for the purposes of calculating future Performance Fees.

Corporate governance statement

2019 Corporate governance statement

Thorney Opportunities Ltd (Thorney Opportunities, TOP or Company) is committed to developing and maintaining an effective system of corporate governance which is commensurate with the size and nature of the Company, its Board and the scope of its operations.

In the following statements we detail how the Company adheres to the 8 core principles and where there is non-adherence we disclose why it is necessary to take a different approach.

Principle 1: Lay solid foundations for management and oversight

The primary role of the Board is to ensure the long-term prosperity of Thorney Opportunities.

The Board is responsible for a broad range of matters and will act in the best interests of the Company to ensure that the business of the Company is properly managed. The Company has no employees and its day-to-day functions and investment activities are managed by Thorney Management Services Pty Ltd (Investment Manager) pursuant to an Investment Management Agreement (IMA) approved by shareholders. The Investment Manager performs the tasks that would ordinarily be performed by senior executives.

The Board has adopted a [Board Charter](#) which stipulates the respective roles and responsibilities of the board and matters expressly reserved to the Board and which operational activities and what levels of authority have been delegated to the Investment Manager.

The Board may delegate any of these matters to individual Directors, Board Committees or the Investment Manager but any such delegation shall be in accordance with the law and the Company's [Constitution](#).

The Board meets at least quarterly. At these meetings senior managers of the Investment Manager are available to report on the Company's operations.

Before being invited to join the Board and standing for election by shareholders, all non-executive Directors have appropriate background checks. All details of directors' qualifications, skills and experience, independence including other material directorships currently held and any related party disclosures are included in the meeting materials presented to shareholders.

Service arrangements have been agreed between the Company and the Directors personally with respect to their individual remuneration and other terms of employment. Each Director has entered into an agreement regarding insurance, access to records and disclosure of any trading in TOP securities as required under ASX Listing Rules, confidentiality and the Company's [Trading Policy](#).

The Company Secretary has a direct reporting line to each Director of the Company in regard to all matters to do with the proper functioning of the Board and the Committees.

Diversity

The Company has not promulgated a *Diversity Policy* nor has it set any measurable objectives for gender diversity in compliance with ASX Recommendation 1.5. As the Company has no employees the Board has determined that a Diversity Policy and the setting of measurable objectives to achieve gender diversity are not warranted at this time. However, the composition of the Board is periodically reviewed.

The Board undertakes a formal annual performance self-assessment of the Board, the Audit and Risk Committee and the Investment Manager.

Corporate governance statement continued

Principle 1: Lay solid foundations for management and oversight continued

An evaluation of board performance was undertaken during the financial year ended 30 June 2019 with no material changes proposed to the Board processes or individual director contributions.

The Board annually reviews the performance of the Investment Manager based on total returns to shareholders and with reference to peer LIC performance and benchmark ASX indices.

The independent directors meet at least once a year to review and evaluate the performance of the Investment Manager.

A satisfactory evaluation of the Investment Manager's performance for the financial year ended 30 June 2019 was undertaken by the independent directors.

The Investment Manager has an established induction process for all its employees with responsibilities under the IMA. As part of this induction process, new senior executives will receive briefings on the business of the Company and the Investment Manager and their policies and procedures. These briefings will focus on the key operational, regulatory, risk and compliance issues that are of relevance to the Company and the Investment Manager.

Principle 2: Structure the board to add value

Nomination and appointment of new Directors

ASX Recommendation 2.1 states that a board should establish a nomination committee and disclose a charter. Given the size and nature of the Company, the Board has determined that a Nomination Committee is not warranted.

The Board considers the issues that would otherwise be considered by a Nominations Committee.

Board skills matrix

The TOP Board must comprise directors with an appropriate range of skills, experience and expertise.

Board skills and experience:	
Executive leadership	All directors
Financial markets acumen	All directors
Governance	All directors
Public policy and Regulation	All directors
Shareholder engagement	All directors
Strategy	All directors

The Board skills matrix sets out the key skills and experience of the Directors and the extent to which they are represented on the current Board and its Committees.

In addition to the skills and experience outlined in this table the Board considers that each Director has the appropriate attributes such as

- honesty and integrity;
- an understanding of shareholder value;
- has sufficient time to undertake the role appropriately;
- an enquiring mind; and
- a demonstrated commitment to appropriate standards of governance.

Background information on Directors in office at the date of this Annual Report is set out in the Directors' Report.

The Company's [Constitution](#) provides that there must be a minimum of 3 and a maximum of 10 directors.

Corporate governance statement continued

Principle 2: Structure the board to add value continued

Having regard to the size and the nature of its business, the Company has determined that a 4 member board is appropriate and sufficient to enable it to effectively discharge its responsibilities to the Company.

Majority of independent directors

The Board currently comprises 2 independent, non-executive directors (Ashok Jacob and Dr Gary Weiss) and 2 non-independent non-executive directors (Alex Waislitz and Henry Lanzer). The Board regularly assesses the independence of each non-executive director.

Director	Position	Classification	Appointment	Last election
Alex Waislitz	Chairman	Non-independent	21 November 2013	24 November 2017
Henry Lanzer	Director	Non-independent	21 November 2013	21 November 2018
Ashok Jacob	Director	Independent	21 November 2013	25 November 2016
Dr Gary Weiss	Director ¹	Independent	21 November 2013	25 November 2016

Thorney Opportunities notes that the current Board does not comply with ASX Recommendation 2.4 with respect to a majority of independent directors. The Board considers that all Directors of TOP bring significant expertise and investment experience to the Company and that the current structure is appropriate for the Company at this time.

Directors are elected by shareholders and in accordance with the provisions of the [Constitution](#), no director holds office for a period longer than 3 years without standing for re-election by the shareholders.

Chairman and independence

Thorney Opportunities notes that ASX Recommendation 2.3 (modified recommendation for externally managed listed entities) and ASX Recommendation 2.5 states that the chair of the Company and Investment Manager should be independent and, in particular, should not be the same person as the CEO of the entity.

The Board takes the view that it is in the best interests of shareholders that Mr Waislitz be the Chairman of Thorney Opportunities and we make the following observations:

- Mr Waislitz, as the long-term chairman and CEO of the private Thorney Investment Group, has a demonstrated track record of successful investment performance over two decades.
- In November 2013, shareholders voted in favour of all Thorney Investment Group proposals, including the appointment of Mr Waislitz as a director, on the expectation he be appointed Chairman of the Company.
- There are well-credentialed independent directors serving on the Board.
- Delegation of certain responsibilities to Board committees.
- The appointment of Dr Gary Weiss as Lead independent director.

The Company has a program for inducting new directors and each director individually reviews their training and professional development needs to maintain the skills and knowledge required to effectively perform their role.

Each director may obtain independent professional advice at the expense of the Company on matters arising in the course of their Board duties. The payment for the cost of the advice by the Company is subject to the approval of the Chairman, which will not be unreasonably withheld.

Principle 3: Act lawfully, ethically and responsibly

Code of Conduct and Conflicts of Interest

The Company has established a [Code of Conduct](#) that provides guidance to Directors and employees of the Investment Manager. Under these principles Directors will:

- conduct business lawfully
- conduct business in good faith and in a manner that will maintain confidence in the Company's integrity;
- perform their duties to high standards of honest, ethical and law-abiding behaviour;
- treat others with dignity and respect; and
- not engage in conduct likely to adversely affect the reputation of Thorney Opportunities.

The *Code of Conduct* also sets out details of how conflicts of interest should be avoided. Directors must disclose to the Company any material personal interest they or their associates may have in a matter that relates to the affairs of the Company, and inform the Board, via the Company Secretary, of any changes. Where conflicts of interest arise, the Code sets out appropriate arrangements that must be followed.

A copy of the [Code of Conduct](#) is available on the Company's website.

Principle 4: Safeguard integrity in corporate reporting

Audit Committee

Thorney Opportunities has established an Audit and Risk Committee and adopted an [Audit and Risk Committee Charter](#). Henry Lanzer (Committee Chairman) and Alex Waislitz have been formally appointed to the Committee but all directors are invited and encouraged to attend each meeting. The Company notes that its Committee composition and Charter do not conform to ASX Recommendation 4.1, however the Board believes that given the size and nature of the Company and the Board, the committee structure is sufficiently appropriate to independently verify and safeguard the integrity of the financial reporting.

A table of attendance at committee meetings by directors is included in the directors' report.

Assurance

Thorney Opportunities does not employ its own CEO or CFO. However for the purposes of section 295A of the Corporations Act and ASX Recommendation 4.2, the Chairman and Company Secretary provide the required assurances and declarations each half-year.

The Thorney Opportunities Board has received assurance from the Chairman and Company Secretary that, in their opinion:

- the financial records of the Company have been properly maintained;
- the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the Company; and
- the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

External Auditor

The Audit and Risk Committee Charter includes information on the procedures for selection, appointment and removal of the external auditor of the Company and for the rotation of the external audit engagement partner. In 2013 shareholders appointed Ernst & Young as the company's auditor. In 2018 the audit engagement partner of Ernst & Young was rotated as required under the rotation policy.

TOP ensures that the external auditor attends the AGM and is available to answer questions relevant to the audit from shareholders.

Corporate governance statement continued

Principle 5: Make timely and balanced disclosure

Thorney Opportunities has adopted a [Disclosure Policy](#) which has procedures designed to ensure compliance with ASX Listing Rules and Corporations Act disclosure requirements and to ensure accountability of Directors and senior management of the Investment Manager for that compliance.

The policy, which is available on the Company's website, has procedures designed to ensure that material information is communicated to the Chairman and Company Secretary and for the assessment of information for the disclosure of material information to the market.

The Board acknowledges the importance of promoting timely and balanced disclosure of all material matters concerning Thorney Opportunities and believes it is fully compliant with Principle 5 and its recommendations.

Principle 6: Respect the rights of shareholders

Thorney Opportunities has a [Communications Policy](#) which seeks to promote effective communication with our shareholders. The Company communicates in several ways including via its Annual Report and Half-yearly accounts, monthly net tangible asset backing announcements, regular shareholder updates from the Chairman and other ASX announcements regarding material investments and other developments.

Thorney Opportunities Ltd maintains a website at: www.thorneyopportunities.com.au.

Annual General Meeting

The Company's AGM will be held on 20 November 2019 at Level 23, 8 Exhibition Street, Melbourne VIC 3000, at a time to be announced.

The Chairman of the meeting will ensure that shareholders are given the opportunity to participate at the AGM.

The Company encourages shareholders to contact the Share Registry and opt in to receive and send all communications to and from the Company electronically.

Principle 7: Recognise and manage risk

The Board, through the Audit and Risk Committee, is responsible for setting policies for oversight of risk and identification and management of material business risks. Thorney Opportunities has an approved [Audit and Risk Committee Charter](#) (see Principle 4 above) and in conjunction with the Investment Manager has adopted a [Risk Management Policy](#).

The Investment Manager has implemented a risk management and compliance framework which enables the identification of risks, the execution of appropriate responses, the monitoring of risks and the controls applied to mitigate risks.

The main areas of risk that have been identified are market risk and operational risk. As a listed investment company Thorney Opportunities will always bear market risk as it invests its capital in assets that are not risk free. Operational risks can include legal, regulatory, disaster recovery, systems, process and human resource, environmental and social risks. Our risk management framework has been designed to monitor, review and continually improve risk management throughout the Company.

For the year ended 30 June 2019 the Audit and Risk Committee reviewed the Company's risk management framework and the Board was satisfied that it continues to be sound.

Corporate governance statement continued

Principle 7: Recognise and manage risk continued

The Board believes that commensurate with the size and nature of the business that an internal audit function is not warranted at this time. The Company utilises highly effective internal control processes and systems, developed over 2 decades by the Investment Manager to manage the multifaceted investment activities of the private Thorney Group. The Investment Manager employs staff and consultants who are responsible for evaluating and continually improving the effectiveness of the risk management and internal control systems. These systems are subject to an annual external audit.

The Company does have a material exposure to the Australian stock market. A large fall or correction to the overall market is likely to adversely affect the Company's NTA. The Investment Manager seeks to reduce this risk through careful stock selection, diversification and management of the relative weightings of individual securities.

Principle 8: Remunerate fairly and responsibly

Remuneration Committee

ASX Recommendation 8.1 states that a board should establish a remuneration committee. Given the size and nature of the Company and the fact the company does not employ executives, the Board has determined that a Remuneration Committee is not warranted, nor does it have a *Remuneration Policy* to disclose.

Non-executive Directors

Non-executive Directors are remunerated by a fixed director's fee including superannuation or as a fixed consulting fee plus GST, as permitted by the Company's Constitution.

The maximum remuneration of Non-executive Directors is determined by Shareholders at a General Meeting in accordance with the [Constitution](#), the Corporations Act and the ASX Listing Rules, as applicable. At present the maximum aggregate remuneration of Non-executive Directors is \$400,000 per annum. The apportionment of non-executive Director Remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each Non-executive Director. The Board may award additional remuneration to Non-executive Directors called upon to perform extra duties or services on behalf of the Company.

Non-executive Chairman

The Non-executive Chairman is employed by the private Thorney Investment Group and does not receive any salary, benefits or incentives for his role as a Director of the Company.

The amount of remuneration for all directors, including all monetary and non-monetary components, are detailed in the directors' report under *Remuneration Report (audited)*.

Investment Manager

The Investment Manager has specified authority and responsibility in regard to management of the Company's investment portfolio. The Investment Manager is entitled to a base fee and a performance fee in accordance with the IMA.

Persons involved in investment management are employees of the private Thorney Investment Group and are not remunerated by the Company.

Further details on the management fees paid to the Investment Manager are included in the financial statements.

Notes to the financial statements

1. Corporate information

The financial statements of Thorney Opportunities Ltd and its subsidiary (collectively TOP or the Company) for the year ended 30 June 2019 were authorised for issue in accordance with a resolution of the directors on 13 August 2019.

Thorney Opportunities Ltd is a Company limited by shares, incorporated and domiciled in Australia.

The nature of the operations and principal activities of the Company are described in the director's report.

The Company's investment activities are managed by Thorney Management Services Pty Ltd (Investment Manager) pursuant to an Investment Management Agreement approved by shareholders.

2.1 Summary of accounting policies

(a) Basis of preparation

The financial statements are general purpose financial statements that have been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and other authoritative pronouncements of the Accounting Standards Board. The financial statements are presented in Australian Dollars and the Company is a for-profit entity for the purpose of preparing financial statements.

The annual report has also been prepared on a historical cost basis, except for financial assets and financial liabilities held at fair value through profit or loss, that have been measured at fair value.

Statement of compliance

The financial statements have been prepared in accordance with the Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board.

Changes in Accounting Standards

The Company has adopted a number of new and amended Australian Accounting Standards and AASB interpretations for the reporting period, including the following list:

Financial Instruments — Amendments to AASB 9 *Financial Instruments*

AASB 9 (2014) is a new standard which replaces AASB 139 *Financial Instruments: Recognition and Measurement* and supersedes AASB 9 issued in December 2009 (version early adopted by the Company) and AASB 9 (issued in December 2010). AASB 9 (2014) brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. AASB 9 (2015) is effective to the Company from 1 July 2018. The Company did not early adopt this version, although assessed that the impact as not being material. Key changes to AASB 9 (2014) since early adoption in 2009 is discussed below.

Classification and measurement

AASB 9 (2014) to introduce a new mandatory category for debt instruments to be at fair value through other comprehensive income for financial assets that have contractual cash flows that meet the Solely Payments of Principal and Interest (SPPI) criteria and are held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. This later version also includes a revised application guidance for classification and measurement of financial assets concerning what constitutes SPPI and requires changes in fair value due to a change in the entity's own credit risk for financial liabilities designated at fair value through profit or loss to be presented in other comprehensive income.

Notes to the financial statements continued

2.1 Summary of accounting policies continued

(a) Basis of preparation continued

Classification and measurement continued

Impairment

Impairment was not included in the 2009 version of AASB 9. Under AASB 9 (2014), impairment of financial assets is recognised based on the lifetime expected credit loss which is determined when the credit risk on a financial asset has increased significantly since initial recognition. When there has been no significant increase in credit risk, 12-month expected credit loss is recognised. The new impairment requirements are applicable for the Company's cash and short term deposits and receivables. The application of the new requirements does not have material impact to the Company.

Hedge accounting

Hedge accounting was not included in the 2009 version of AASB 9. The Company does not have any existing designated hedging relationships for accounting purposes and therefore does not expected the impact to be material to the Company.

AASB 15 Revenue from contracts with customers

This standard replaces *AASB 118 Revenue* and other revenue-related standards and interpretations. The 'core principle' of AASB 15 is that an entity recognises revenue related to the transfer of promised goods or services passes to customers. The amount of revenue recognised should reflect the consideration to which the Company expects to be entitled in exchange for those goods and services and is either recognised 'over time' or 'at a point in time'. AASB 15 also requires disclosure of the nature, amount, timing and uncertainty of revenue and cash-flows arising from contracts with customers.

Transitioning to AASB 15 has had no material impact on the Company's financial statements, as the Company's revenue is outside the scope of the standard.

Standards issued that might have an impact but not yet effective

The Company has not applied any Australian Accounting Standards or AASB Interpretations that have been issued as at balance date but are not yet effective for the year ended 30 June 2019.

AASB 16 Leases

This standard applies from 1 July 2019 but is not expected to impact the Company as the Company currently does not have lease arrangements where the Company acts as lessor.

Notes to the financial statements continued

2.1 Summary of accounting policies continued

(b) Basis of consolidation

The Company meets the definition of an Investment Entity under AASB 10 Consolidated Financial Statements, as it meets the following criteria:

- the Company obtains funds from shareholders for the purpose of providing them with investment management services;
- the Company's business purpose, which it communicated directly to shareholders, is investing solely for returns from capital appreciation and investment income; and
- the performance of investments made by the Company are measured and evaluated on a fair value basis.

The Company meets all the typical requirements of an investment entity.

The Company has determined that for any entities it controls or has significant influence over, that do not provide investment related services to the Company, consolidated financial statements are not required. The Company's investments in these entities are measured at fair value through profit and loss in accordance with AASB 9.

2.2 Accounting judgements and estimates

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The significant accounting policies have been consistently applied in the current financial year and the comparative period, unless otherwise stated. Where necessary comparative information has been re-presented to be consistent with current period disclosures.

Fair value of financial instruments

When the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Notes to the financial statements continued

2.3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

a) Financial instruments

(i) Classification

The Company classifies its financial assets and financial liabilities into the categories below in accordance with AASB 9.

Financial assets and liabilities at fair value through profit or loss

The Company has two discrete portfolios of securities, the long-term portfolio and the trading portfolio.

The long-term portfolio relates to holdings of securities which the Directors intend to retain on a long term basis, principally for the purpose of generating capital appreciation. The long-term portfolio is recognised as a non-current asset in the statement of financial position.

The trading portfolio comprises securities acquired principally for the purpose of generating a profit from short-term fluctuation in price. The trading portfolio is recognised as a current asset in the statement of financial position. All derivatives are classified as held for trading.

Other financial liabilities

This category includes all financial liabilities, other than those classified as at fair value through profit or loss. Other financial liabilities are measured at their nominal amounts. Amounts are generally settled within 30 days of being recognised as other financial liabilities. Given the short-term nature of other financial liabilities, the nominal amount approximates fair value.

(ii) Recognition

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace are recognised on the trade date, i.e. the date that the Company commits to purchase or sell the asset.

The Company includes in this category equity instruments. Equity instruments include investments in subsidiaries and associates. The following is noted:

- *Investment in subsidiaries:* in accordance with the exemption under AASB 10, investments in subsidiaries are not consolidated, unless the subsidiary does not meet this exemption because it performs services that relate to the investment activity of the Company. Otherwise the Company measures unconsolidated subsidiaries at fair value through profit and loss.
- *Investment in associates:* in accordance with the exemption in AASB 128 Investment in Associates and Joint Ventures, the Company does not account for its investments in associates using the equity method. Instead the Company measures its investments in associates through fair value through profit and loss.

Notes to the financial statements continued

2.3 Summary of significant accounting policies continued

a) Financial instruments continued

iii) De-recognition

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised where:

- i. The rights to receive cash flows from the asset have expired; or
- ii. The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and
- iii. Either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Company derecognises a financial liability when the obligation under the liability is discharged, cancelled or expires.

(iv) Initial measurement

Both the long-term and trading portfolios are classified at initial recognition as financial assets at fair value through profit or loss. All transaction costs for such instruments are recognised directly in profit or loss.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value presented in the statement of profit or loss.

Dividend income earned on investments held at fair value through profit or loss is recognised in the statement of comprehensive income.

Loans and receivables and financial liabilities (other than those classified as at fair value through profit or loss) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue.

For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Company recognises the difference in the statement of comprehensive income, unless specified otherwise.

(v) Subsequent measurement

After initial measurement, the Company remeasures financial instruments which are classified as at fair value through profit or loss at fair value (see Note 7). Subsequent changes in the fair value of those financial instruments are recorded in 'Change in fair value of financial assets and liabilities at fair value through profit or loss'. Interest earned is recorded in 'Interest revenue' according to the terms of the contract. Dividend revenue is recorded in 'Dividend revenue'.

Notes to the financial statements continued

2.3 Summary of significant accounting policies continued

b) Fair value measurement

The Company measures financial assets and liabilities at fair value through profit or loss, such as equity securities and debt instruments, at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1	Quoted (unadjusted) market prices in active markets for identical assets or liabilities
Level 2	Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
Level 3	Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

c) Functional and presentation currency

The Company's functional and presentation currency is the Australian Dollar, which is the currency of the primary economic environment in which it operates. The Company's performance is evaluated and its liquidity is managed in Australian Dollars. Therefore, the Australian Dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

d) Interest revenue and expense

Interest earned on financial assets classified as 'at fair value through the profit or loss' is recorded in 'Interest revenue' according to the terms of the contract.

e) Dividend revenue

Dividend revenue is recognised when the Company's right to receive the payment is established. Dividend revenue is presented gross of any non-recoverable withholding taxes, which are disclosed separately as tax expense in the Statement of comprehensive income.

f) Fees, commissions and other expenses

Except where included in the effective interest calculation (for financial instruments carried at amortised cost), fees and commissions are recognised on an accrual basis. Legal and audit fees are included within 'Legal and professional fees', and are recorded on an accrual basis.

g) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand, demand deposits, short term deposits in banks with original maturities of three months or less and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents is presented as defined above, net of outstanding bank overdrafts.

h) Taxes

Current income tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date where the Company operates and generates taxable income.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- i. When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- ii. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

2.3 Summary of significant accounting policies continued

i) Profits reserve

The profits reserve is made up of amounts transferred from current and retained earnings that are preserved for future dividend payments.

j) Due to and due from brokers

Amounts due to brokers (refer to Note 10) are payables for securities purchased (in a regular way transaction) that have been contracted for but not yet delivered on the reporting date. *Refer to the accounting policy for 'other financial liabilities' for recognition and measurement of these amounts.*

Amounts due from brokers include margin accounts and receivables for securities sold (in a regular way transaction) that have been contracted for but not yet delivered on the reporting date. *Refer to accounting policy for 'loans and receivables' for recognition and measurement of these amounts.*

k) Goods and services tax (GST)

Revenue, expenses and assets are recognised net of the amount of GST except:

- i. When the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- ii. Receivables and payables are stated with the amount of GST included.

Reduced input tax credits (RITC) recoverable by the Company from the ATO are recognised as a receivable in the Statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, is classified as part of operating cash flows.

Total investment income	21,113,535	18,882,303

4. Income tax

The income tax expense attributable to the year differs from the prima facie amount payable on the profit before tax. The difference is reconciled as follows:

	2019 \$	2018 \$
Current tax		
Current income tax charge / (benefit)	1,676,601	(2,124,197)
Deferred tax		
Origination and reversal of temporary differences	1,287,693	3,859,966

5. Dividends

	2019 \$	2018 \$
(a) Final Dividend FY 2019 not recognised at year end		
Since the end of the year, the Directors have declared a Final dividend of 1.14 cents per share (fully franked) which has not been recognised as a liability at the end of the financial year (2018: 0.90 cents per share).	2,321,259	1,832,573
(b) Dividend franking account		
Balance at 1 July	1,145,063	661,019
Franking credits received on dividends from investments	1,700,134	1,419,109
Franked dividends paid during the period	(1,204,864)	(935,065)
Balance at 30 June	1,640,333	1,145,063
Subsequent to reporting period, the franking account will reduce by the dividend proposed above	880,478	540,644
	759,855	604,419

The Company's ability to pay franked dividends is fully dependent upon the receipt of franked dividends from investments as while the Company continues to utilise its available tax losses, it will not pay tax.

6. Cash and short-term deposits

	2019 \$	2018 \$
Cash at bank	3,774,665	14,589,511
Total cash and short-term deposits	3,774,665	14,589,511

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short-term deposits are made for varying periods of between 1 day and 90 days, depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates. The carrying value of Cash and short-term deposits approximates fair value.

a) Reconciliation of net profit after tax to net cash provided by operating activities:

7. Fair value measurement

To reflect the source of valuation inputs used when determining the fair value of its financial assets and financial liabilities, the Company uses the fair value hierarchy prescribed in AASB 13 Fair Value Measurement:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of these investments is based on the last sale price for the security as quoted on the relevant exchange;
- Level 2: valuation techniques using market observable inputs, either directly or indirectly. The fair value of assets and liabilities with short-term maturities are valued at the amount at which the asset or liability could be exchanged in a current transaction between willing parties; and
- Level 3: valuation techniques using non-market observable data with the fair value for investments based on inputs determined by Directors' valuation.

The fair value measurement hierarchy of the Company's financial assets and financial liabilities is as follows:

	2019 \$	2018 \$
Assets measured at fair value		
Level 1: Listed equities	167,991,392	151,585,353
Level 2: -	-	-
Level 3: Long-term financial assets ¹ and listed options ²	7,500,000	838,559
Total financial assets	175,491,392	152,423,912
Total current	167,991,392	152,423,912
Total non-current	7,500,000	-
Liabilities measured at fair value		
Level 1: Exchange traded options	-	64,000
Level 2: -	-	-
Level 3: -	-	-
Total financial liabilities	-	64,000

¹ Long-term financial assets are valued using a discounted cash flow model or latest purchase price. The 2019 figure represents a long-term financial asset of a 25% ownership interest in Australian Community Media Group (incorporated in Australia), which is valued at the purchase price.

² Listed options are valued using a Black-Scholes option pricing model (due to lack of trading activity during the period).

For assets and liabilities that are recognised at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. Reconciliation of recurring fair value measurements categorised within Level 3 is as follows:

	Financial assets	Listed options	Total
Financial assets: Level 3			
Balance at 1 July 2018	838,559	-	838,559
Transfer to Level 1 upon exercise of options	(838,559)	-	(838,559)

17. Financial risk management

The Company's objective in managing risk is the creation and protection of shareholder value. Risk is inherent in the Company's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Company's continuing profitability. The Company is exposed to credit risk, liquidity risk and market risk (which includes interest rate risk and equity price risk) arising from the financial instruments it holds.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the Company by failing to discharge an obligation.

The Company is exposed to the risk of credit-related losses that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations. These credit exposures exist within financing relationships, derivatives and other transactions.

It is the Company's policy to enter into financial instruments with reputable counterparties. The Investment Manager closely monitors the creditworthiness of the Company's counterparties (e.g. brokers, custodian, banks etc.) by reviewing their credit ratings, financial statements and press releases on a regular basis.

Liquidity risk

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected.

The Company invests primarily in marketable securities and other financial instruments, which under normal market conditions are readily convertible to cash, except for the investment in unlisted equity. In addition, the Company has no borrowings and has a daily policy to monitor and maintain sufficient cash and cash equivalents to meet normal operating requirements.

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates and equity prices. As the Company is a listed investment company with a flexible investment mandate, the Company will always be subject to market risks as the prices of its investment fluctuates with the market.

The Company's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investments. The Company manages the equity price risk through adherence to its investment policy and objectives.

At the reporting date, the exposure to listed and unlisted equity securities at fair value was \$175,491,392 (2018: \$152,423,912). A decrease of 10% in share value of securities held could have an impact of approximately \$17,549,139 (2018: \$15,242,391) on the income or equity attributable to the Company, depending on whether the decline is significant or prolonged. An increase in 10% in share value of securities held would have a similar favourable impact on income and equity.

Notes to the financial statements continued

18. Financial risk management continued

Interest risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows. The Company is not materially exposed to interest rate risk as the majority of its cash is in short-term deposits with fixed interest rates. The Company's exposure to interest rate relates primarily to cash at bank and borrowings with Prime Broker. Interest rate sensitivities have not been performed as the Company's exposure to interest rate risk is not significant.

19. Related party transactions

The following table provides the total amount of transactions which have been entered into with related parties during the year ended 30 June 2019:

The Company has entered into an investment management agreement with Thorney Management Services Pty Ltd (TMS) for a period of 10 years and expiring 21 November 2023.

Under this agreement TMS is entitled to a base fee and a performance fee. For the year ending 30 June 2019 a base fee of \$2,411,687 (2018: \$2,427,465) and a performance fee of \$3,030,334 (2018: \$2,794,827) was paid or payable to TMS. The Company must pay TMS within 60 days of receiving an invoice.

TIGA Trading Pty Ltd, a related entity of TMS, employs personnel to provide company secretarial and financial accounts preparation services to Thorney Opportunities Ltd. These services are provided on commercial terms and total \$52,000 for the 2019 financial year (2018: \$52,000).

TMS, TIGA Trading Pty Ltd, Thorney Holdings Pty Ltd and Thorney Investment Group Australia Pty Ltd are related bodies corporate controlled by Alex Waislitz by virtue of 608(1) of the *Corporations Act (2001)*.

During the year, the Company engaged Arnold Bloch Leibler, a legal firm of which Henry Lanzer is the managing partner, to provide legal advice totalling \$5,098 (2018: \$32,745).

In accordance with the terms of Mr Lanzer's appointment, a payment of \$54,750 was paid or payable to Arnold Bloch Leibler as remuneration for his role as a Director of the Company (2018: \$54,750).

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit (other than those detailed above) by reason of a contract made by the Company or a related Company with the Director or with a firm of which he is a member or with a Company in which he has substantial financial interest.

Independent Auditor's Report

To the Members of Thorney Opportunities Ltd

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Thorney Opportunities Ltd (the Company), which comprises the statement of financial position as at 30 June 2019, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the Corporations Act 2001, including:

- (i) giving a true and fair view of the financial position of the Company as at 30 June 2019 and of its financial performance for the year ended on that date; and
- (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Financial Report.

Fair value measurement and existence of investments and related disclosures

Why significant

The Company invests in listed and unlisted financial assets which are carried at fair value on the statement of financial position.

The investment portfolio at year end comprised of \$168.0m in quoted equity investments, and \$7.5m in unlisted investments.

The valuation and existence of the investment portfolio was a key audit matter because investments represent the principal element of the Company's total assets.

How this matter was addressed in the audit

Our audit procedures included the following:

- ▶ Agreed the quantity of all quoted equity investments held at year end to custodial statements, and further agreed prices to market closing prices.
- ▶ Agreed the unlisted equity investment acquired during the year to acquisition documents and assessed the valuation methodology used to calculate the fair value to underlying support.
- ▶ Obtained and considered the assurance report that describes the effectiveness of the operational processes and controls of the Company's asset custodian.
- ▶ Assessed the adequacy of the disclosures included in Note 8 Financial Assets.

Investment management and performance fees

Why significant

The Company pays its Investment Manager, Thorney Management Services Pty Ltd (TMS), a related party, a base management fee of 0.75% of gross assets and a performance fee of 20% of the increase in net asset value net of base fee for the year, as stipulated in the Investment Management Agreement (IMA). The base management fee is calculated half yearly while the performance fee is calculated on an annual basis.

For the year ended 30 June 2019, \$2.5m and \$3.1m of base management fee and performance fee were recognised, respectively.

The measurement of base management fees and performance fees was a key audit matter because it is of interest to key stakeholders as these fees are significant expenses that reduce the net tangible asset of the Company.

Refer to Note 19 of the financial report.

How this matter was addressed in the audit

Our audit procedures included the following:

- ▶ Determined whether the calculation of the base management fee and performance fee expenses was determined in accordance with the IMA.
- ▶ Agreed key inputs used in the base management fee and performance fee calculations, including gross assets in the case of base management fees and the net asset increase in the case of performance fees to the statement of financial position.
- ▶ Recalculated the base management fee and performance fee and compared the recalculated amounts to the expenses recognised in the statement of comprehensive income.

Information Other than the Financial Report and Auditor's Report Thereon

The Directors are responsible for the other information. The other information comprises the information in the Company's Annual Report for the year ended 30 June 2019, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based upon the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' Responsibilities for the Financial Report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

**Building a better
working world**

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated to the Directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Audit of the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 9 to 12 of the Directors' Report for the year ended 30 June 2019.

In our opinion, the Remuneration Report of Thorney Opportunities Ltd for the year ended 30 June 2019, complies with section 300A of the Corporations Act 2001.

Responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
